What is Notebot?
- A tool to help students study more effectively through active learning.
- Focuses on engagement rather than passive learning.

How Does It Work?
- Uses student-provided notes (audio, video, PDF documents).
- Converts these into structured notes and quizzes.

What does it allow students to do?
- Choose a study topic.
- Set difficulty levels.
- Select the number of quiz questions.

How does it use ElevenLabs technology?
- Reading questions and answers.
- Listening to questions, answers, and feedback.
